COOK'S NEW HYBRIDIZED POTATO SEEDS FROM SEED BALLS

Established 1876.

My Trade Mark.

The Wonder of Potato Growers, The Amazement of Gardeners and a Puzzle to Scientists.
EVERY SEED WILL POSITIVELY PRODUCE A NEW AND DIFFERENT VARIETY OF POTATOES.

Over 50 New Seedling Varieties Can Easily be Grown from One 15 Cent Packet of My Hybridized Potato Seeds. One May Make Your Fortune. The Rarest of Seeds—Easy to Grow as Tomatoes.

My Unrivalled Potato Seeds

From the Seed-Ball, is the wonder of the Vegetable World. There is nothing like them. No product of the Garden so interesting—none may prove of such value.

All Valuable New Potatoes Are Produced From Such Seeds.

The Seedlings will be all colors, shapes, sizes and qualities—often 100 to 200 Potatoes in a hill (see illustrations). There will be white, yellow, pink, red, blue, purple and black Potatoes. The Seed seems to go mad and try to produce anything and everything in the Potato line. Very strange and marvelous "freaks" often appear.

Potato Seed Balls are vanishing. Millions never saw one. Thousands have tried in vain to

get the seed—willing to pay any price. Now is your opportunity. Get them while you can. They may soon be gone forever.

The World greatly needs a better potato—one blight-proof, rot-proof, in fact a perfect Potato. It can only be obtained from such seeds as I offer you. Your chance is good as any. Produce a better Potato and you will reap a golden harvest and confer a priceless blessing on the world.

I have made a specialty of Hybridized Potato Seeds for many years. It is a worthy object. Agricultural College Experts write me in praise of my good work in helping to create new and better Potatoes. Every planter should lend a helping hand. Grow these interesting Seedlings. Never before so good a chance to create improved Potatoes.

Try this rare seed now! It may be your last chance. The possibility of producing a new variety superior to all others and more valuable than a gold mine, is fascinating in the extreme. Order to-day.

Give your Boy and Girl a chance to grow Seedling Potatoes. It is so easy. I send full directions. They will be delighted and have fun galore. They may be the lucky ones in producing a prize variety.

TESTIMONIALS.

I regret I have only room for the following (could fill pages):

Seven Seedlings of Rare Value.

"I have a magnificent Seedling, Potato grown from your Hybridized Seed, and have raised over 400 bushels. A prominent seedsman wants to introduce them and is trying to buy me out. I have six other seedlings that are more than good E. A. Goot-speed Onion. Co., N. Y."

From the Neb. Experiment Station,

"Mr. A. T. Cook, My dear sir: Your Potato Seeds gave very interesting results. I had thirteen different types—white, purple, pink, etc., two to 50 in a hill. Size from half inch to three and a half inches in diameter. Geo. W. Hood, Prof. of Horticulture."

Worth Their Weight in Gold.

Mr. C. E. Flint of Washington writes: "Your Potato Seeds are worth their weight in gold. I had a grand assortment. I grew over 50 varieties from one packet. They are the finest I ever saw, and I expect to make a lot of money out of them."

The Above Photo-Engraving shows 184 Seedling Potatoes produced in one hill from potato-ball seed at the Montana Experiment Station. Many are table size. In all the realms of Gardening there is nothing so wonderful—so mystifying as Potato Seeds. Every Seed produces a new, distinct variety.

PHOTO OF ONE HILL—210 Tubers Weighing 13 lbs. (Nearly a Peck)

The Above astonishing hill of Potatoes—the product of a single seed-ball seed, containing 210 Tubers—nearly all of table size, was grown by A. N. Roberts of Ithaca, N. Y. He planted the seed in the spring and dug and photographed them the following October. This shows the marvelous possibilities of Hybridized Seed.

The above Photo-Engraving is taken from the December, 1910, issue of "The Guide to Nature"—a splendid Scientific Magazine—Published at Arcadia, Sound Beach, Conn., and Edited by Dr. Edward F. Bigelow, the noted Naturalist Author and Lecturer. (Subscription price only \$1.50 a year.)

SPECIAL REDUCED PRICES OF COOK'S HYBRIDIZED POTATO SEEDS.

Altho my rare Potato Seeds would be cheap at one dollar; to introduce them quickly and thus help the production of improved varieties, I offer them as follows: Large Packet—over 100 Selected Seeds, with full directions, only 15 cts.; 2 for 25 cts.; 4 for 50 cts.; 10 for \$1.00; 100 for \$5.00 all postpaid.

BOYS AND GIRLS WANTED

And Club-Agents and Dealers everywhere to sell these valuable Seeds. It is so easy. All planters will want them. Try it now. You can make money as never before. Special price to Boys and Girls, Club-Agents and Dealers who buy to sell again, only 60 cents a dozen.

If Premiums are preferred—remit 10 cts. per Packet, and for a \$4.00 order I will send 40 Packets and a splendid Boy's or Man's Nickel Silver Watch—or Girl's Size for a \$6.00 order. They are beauties, superb time-keepers and pretty as \$25.00 Watches. I have other charming Premiums. Please show my offer to all Club-Agents and to every Boy and Girl who wants an elegant Watch. Your Friend and Well Wisher, A. T. COOK.

Potato Seed Balls—One-third Size. These Very Rare Seed Balls are Produced on the Top of Potato Vines.

From an Editorial in the "Waterford (N. Y.) Times": "Mr. A. T. Cook, the widely known Seedsman of Hyde Park, N. Y., is one of the most reliable men in the Seed business. We have known Mr. Cook for nearly half a century. He is one of the most persistent experimenters in producing new varieties of Vegetables and Flowers and improving the old, and the improvement of the Potato has been one of his pet enterprises. Every reader of this paper who may desire to experiment with the Potato Seeds will find Mr. Cook the right man to deal with."
